## Work Experience

### SQUER

FREELANCE CODING ARCHITECT

Vienna, Austria

since 2022

- Implemented a POC for replacing a legacy system for Wuestenrot Technology as Coding Architect
- Designed the legacy migration using the Strangler Fig Pattern and built a bidirectional data sync via the Outbox Pattern
- Responsible for hiring and technical assessments of new developers based on practical coding examples
- Redesigned a property management software for the WETgruppe with a focus on usability and technical modernisation
- Worked closely with stakeholders to translate business requirements into actionable architecture and product decisions

### Webshop Implementation Sustainable Style

FREELANCE FULLSTACK DEVELOPER

Website:

<https://www.sellemond.com/>

since 2025

- Designed and implemented a full-stack e-commerce platform for a Viennese fashion label with handcrafted shirts
- Developed with Next.js and deployed on Vercel including custom UI with Tailwind CSS
- Integrated Stripe Checkout for secure payment processing and Contentful as headless CMS for products, prices, and content
- Architecture focused on performance, scalability, and a clear separation between content management and frontend delivery
- Owned the entire development lifecycle from UI/UX implementation through third-party integrations to a production-ready, maintainable webshop

## **adesso Austria GmbH**

LEAD DEVELOPER

*Vienna, Austria*

*2020 – 2022*

- Lead Developer for the funeral planner of Bestattung Wien
- Designed and implemented the cemetery plot search and further developed the Digital Grave for Friedhoefe Wien
- Implemented an internal competency search for Wien IT and further developed a training platform for Wiener Linien

## **Bundesrechenzentrum GmbH**

FULLSTACK DEVELOPER

*Vienna, Austria*

*2017 – 2020*

- Developed business applications for school and residential subsidies in the public sector
- Implemented the textbook catalogue for the approval of Austrian school textbooks as well as the public textbook search
- Requirements engineering in close collaboration with clients and business departments

## **Selected Client Projects**

WEB DEVELOPER

*Vienna and London*

*2013 – 2016*

- Built WordPress websites for Blighty, Kunstraum Sellemond, and Fashion Vis a Vis
- Integrated a webshop for a Viennese fashion label
- Responsible for technical implementation, content integration, and ongoing adjustments
